

ROTATE THE WORLD. GRAVITY DOES THE REST.

The idea

Hold a small world in your hands.

You never move the character. You pull the whole island, and gravity carries a glowing orb home.

Core mechanic

ONE GESTURE. DRAG ANYWHERE TO ROTATE THE ISLAND. GRAVITY DOES THE REST.

1 PULL

2 ROLL

3 ARRIVE

Gameplay

A FEW READABLE PIECES, COMBINED FIFTY WAYS.

SPIKES

GEMS

WATER

BOULDERS

URCHINS

World and progression

FINISH AN ISLAND AND THE CAMERA PUSHES FORWARD. THE NEXT LEVEL WAS STANDING IN THE SKY THE WHOLE TIME.

THE DOOR OPENS

THE CAMERA TRAVELS

THE NEXT ISLAND IS LIVE

Visual identity

A GLOWING DOOR HOME

A GLASS ORB WITH A STAR INSIDE

GRASS, VINES, FLOWERS, LIGHT

The experience

Understood in one second

Drag anywhere. The world turns. That is the whole tutorial.

Physics you can feel

Weight, momentum and a settling wobble in every pull.

A world you travel through

No loading screens, no cuts: the camera pushes on to the next island.

One idea per level

Fifty handcrafted islands across three skies, each teaching one thing.

PULL THE WORLD

ROTATE THE WORLD. GRAVITY DOES THE REST.
